GYR-O INDEX · THE MASTER INDEX

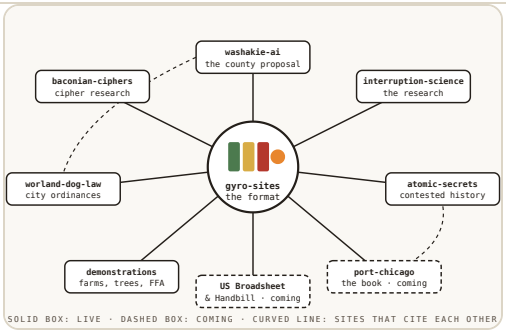

GYR-O Index ·
every GYR-O site, and how to use them

WHAT THIS IS

One page that lists every site built in the GYR-O format: what each is about, who it is for, where to start, and whether it is live. Below the line, a short help summary for reading any GYR-O page, and one for each site.

Every GYR-O site reads the same way, so learning one teaches them all. This page is the place to start.

6 live sites · 2 coming · 5 demonstrations · one way to read them all

The family: the format at the center, every site built in it around it.

THE PAGE LAYOUT BELOW IS STANDARD ON EVERY GYR-O SITE

A PLAIN ANSWERS ✓

– **What is the GYR-O Index?**

The master index of every site built in the GYR-O format. Each entry says what the site is, who it is for and whether it is live; each site also has a short help summary below. The sites cite and link to one another, so this page is the one place that shows them all together.

THE FORMAT

LIVE **gyro-sites.online**

GYR-O Pages itself: the format, its rules, the class template and the Auto-Gyro build page.

PROPOSALS AND BUSINESS

LIVE **washakie-ai.online**

A $10,000 proposal for a grass-roots AI pilot in Washakie County: the technology, the budget and the proof it works.

COMING **US Broadsheet & Handbill**

Printed handbills and broadsheets, each with a QR code to a live page, so the print never has to be redone. Drafted; domain not yet bought.

CIVIC

LIVE **worland-dog-law.online**

Every City of Worland ordinance that applies to dogs, indexed, with plain-language answers.

RESEARCH

LIVE **interruption-science.online**

What it costs to be pulled away from a task, and how people get back: the research behind Round Trip Distraction.

LIVE **baconian-ciphers.online**

Dated one-day reports from computer-aided research on the Baconian biliteral and Word ciphers.

LIVE **atomic-secrets.online**

Two contested stories from the atomic age, Port Chicago 1944 and Fukushima 2011, with the official accounts beside them.

COMING **port-chicago.online**

The 2026 edition of *The Last Wave from Port Chicago*, and the search for a lost film of the 1944 explosion. Built; domain being registered.

DEMONSTRATIONS

DEMO **East Bench Pivot Farm**

hay and beef east of Worland

DEMO **Cottonwood Draw Farms**

a seasonal harvest crew, in English and Spanish

DEMO **Bighorn Basin Tree Service**

a tradesman, insurance on the front page

DEMO **Ruby Calder, Chief Washakie FFA**

a student's first record of involvement

DEMO **Anna**

a student shows a business what a page would cost

– How do I read any GYR-O page?

The same way every time: every GYR-O site has the same controls in the same places. Learn them once here.

Intro and Info
Two boxes at the top. Intro is the synopsis; Info is the three columns. Tick either, both or neither. The page remembers.

Columns A, B, C
A: plain answers. B: every source, previewed. C: the full technical detail. Switch any column off with its tick box.

Open an answer
Click a question in column A to unfold its answer. Click again to fold it.

Small numbers
A red numeral after a claim opens its source card in column B, slid to the middle of the screen and flashed.

The way back
The Back arrow on a source card returns you to the very numeral you came from.

Source cards
Read the preview and "Why it is cited" first. The link is last: follow it only if you still need to.

Search
The search box finds words anywhere on the page, even inside folded answers.

Download PDF
Every page offers a ready-made PDF of itself, for printing or keeping.

On a phone
The columns stack; the A, B, C buttons switch between them.

Signature graphic
Every site has one picture. It is always on screen, full size or as a thumbnail; click it to open it full size.

– Help: gyro-sites.online

GYR-O Pages itself: the format, its rules, the class template and the Auto-Gyro build page. [1]

For: anyone deciding whether to have a GYR-O site, and anyone building one. **Start with:** the Intro, then "What is GYR-O Pages?" in column A; the orange Auto-Gyro page shows how a site gets built. **Status:** Live; gyro-sites.online.

– Help: washakie-ai.online

A $10,000 proposal for a grass-roots AI pilot in Washakie County: the technology, the budget and the proof it works. [2]

For: county officials, grant reviewers and local businesses. **Start with:** "Where is the proof it works?" in column A, and the Anna page for a student's view. **Status:** Live; washakie-ai.online.

– Help: US Broadsheet & Handbill

Printed handbills and broadsheets, each with a QR code to a live page, so the print never has to be redone. Drafted; domain not yet bought. [3]

For: anyone in Worland who needs a notice, a sale or a service in print. **Start with:** the Sound button in the Intro, then "What does US Broadsheet & Handbill make?". **Status:** Coming: not yet online; the address is not live yet.

– **Help: worland-dog-law.online**

Every City of Worland ordinance that applies to dogs, indexed, with plain-language answers. [4]

For: dog owners and neighbors in Worland. **Start with:** the plain answers in column A; the full ordinances have a page of their own. **Status:** Live; worland-dog-law.online.

– **Help: interruption-science.online**

What it costs to be pulled away from a task, and how people get back: the research behind Round Trip Distraction. [5]

For: anyone curious why interruptions cost so much. **Start with:** "What does the 23-minute figure really mean?" in column A. **Status:** Live; interruption-science.online.

– **Help: baconian-ciphers.online**

Dated one-day reports from computer-aided research on the Baconian biliteral and Word ciphers. [6]

For: cipher and authorship researchers. **Start with:** the latest issue at the top; earlier issues are each dated. **Status:** Live; baconian-ciphers.online.

– **Help: atomic-secrets.online**

Two contested stories from the atomic age, Port Chicago 1944 and Fukushima 2011, with the official accounts beside them. [7]

For: readers of contested history who want the sources in view. **Start with:** the Intro, then the source cards in column B. **Status:** Live; atomic-secrets.online.

– **Help: port-chicago.online**

The 2026 edition of *The Last Wave from Port Chicago*, and the search for a lost film of the 1944 explosion. Built; domain being registered. [8]

For: readers of the book, and anyone with a lead on the lost film. **Start with:** "The lost film" in column A. **Status:** Coming: not yet online; the address is not live yet.

– Help: the demonstrations

Five pages built to show what a GYR-O site would look like for a local farm, a tradesman or a student. The people and businesses are invented; the county, the rules and the sources are real [9].

– Who keeps this index?

Walter Wilkinson, of Worland, Wyoming, who created the GYR-O format. When a site is added or goes live, it is added here.

B SOURCES ✓

HOW TO READ A CARD

Every card below reads the same way, top to bottom. Parts 4 and 5 are the ones a bare footnote never gives you.

1. **Number and kind** — what sort of thing it is
2. **Title** — what it is called
3. **Provenance** — who made it, when, under what license
4. **Preview** — what you would find if you went there
5. **Why it is cited** — what it is doing on this page
6. **The link** — last, and only last

INTERNAL LINKS

The most recent content change, and the record behind it.

Chronicle — what has been happening, and why
The record of this index in plain language, newest first.

EXTERNAL LINKS

Every site in the family, previewed. The link is the last line.

1 WEBSITE · THE FORMAT

gyro-sites.online

Walter Wilkinson · Worland, Wyoming

The format explained in its own format: a page of plain answers, previewed sources and technical detail, the formal definition, the Auto-Gyro build page and a gallery of every site.

Why it is listed: as a member of the GYR-O family.

→ gyro-sites.online

2 WEBSITE · A PROPOSAL

washakie-ai.online

Walter Wilkinson · Washakie County

A pilot program to build single-topic websites for Washakie County subjects, with the budget, the sponsor search and the evidence that the method works.

Why it is listed: as a member of the GYR-O family.

→ washakie-ai.online

3 WEBSITE · A BUSINESS (COMING)

US Broadsheet & Handbill

Walter Wilkinson · Worland, Wyoming

The company page: what it prints, why a live page sits behind every sheet, the seven synoptic formats, Mark Twain's 1866 handbill, and the research behind it.

Why it is listed: as a member of the GYR-O family. It is built but not yet online.

→ not yet online

4 WEBSITE · CIVIC REFERENCE

worland-dog-law.online

Built in the GYR-O format

Plain-language answers to the questions dog owners ask, with a complete index of the city code and an audit of where the code is unclear.

Why it is listed: as a member of the GYR-O family.

→ worland-dog-law.online

5 WEBSITE · RESEARCH SUMMARY

interruption-science.online

Walter Wilkinson

Twelve plain answers on interruption science, from resumption lag to attention residue, with every study previewed.

Why it is listed: as a member of the GYR-O family.

→ interruption-science.online

6 WEBSITE · RESEARCH REPORTS

baconian-ciphers.online

Walter Wilkinson (FB_Decipherer)

A running series of one-day reports: what was measured, what was found, and what is still open.

Why it is listed: as a member of the GYR-O family.

→ baconian-ciphers.online

7 WEBSITE · CONTESTED HISTORY

atomic-secrets.online

Walter Wilkinson

Peter Vogel's case about Port Chicago and Yoichi Shimatsu's Fukushima reporting, the claims kept as their authors', the official record alongside.

Why it is listed: as a member of the GYR-O family.

→ atomic-secrets.online

8 WEBSITE · A BOOK (COMING)

port-chicago.online

Walter Wilkinson

What is known about the 2026 edition and the lost film, where each piece comes from, and what is still open.

Why it is listed: as a member of the GYR-O family. It is built but not yet online.

→ not yet online

9 WEBSITE · DEMONSTRATIONS

Every GYR-O site, and the demonstrations

gyro-sites.online · sites

The gallery page on gyro-sites.online, with the four demonstration sites: two farms, a tree service and an FFA student.

Why it is listed: for the demonstrations, which live inside gyro-sites.online rather than at addresses of their own.

```
→ gyro-sites.online/sites
```

C HOW IT WORKS (DETAILS) ✓

How the sites interlock

Every site is built from the same template and shares the same small scripts (search, the Back arrow, the up button, phone view), copied out from one master so no copy drifts. Each finished site carries a “built by Auto-Gyro” link back to the format at gyro-sites.online, and sites on related subjects cite one another in their source cards: washakie-ai.online points to worland-dog-law.online as its proof, and atomic-secrets.online and port-chicago.online share the Port Chicago record.

Hosting and publishing

Each site is a handful of plain files in its own repository, served by GitHub Pages under its own `.online` address, with the certificate issued automatically. There is no server program, database, login or form on any of them. One command, PUBLISH - ALL SITES, sends every changed site live at once.

Status, and what “coming” means

A site marked Coming is built and checked on the author’s drive but not yet at its address: its domain is still to be bought or registered. Its entry here says so, and its link is withheld until it is live.

Keeping the index honest

The index lists only sites that exist. Each entry’s description is taken from the site’s own Intro, and once the index is live, its links are checked by the same link-health check as every other source card. When a site is added, the index, its chronicle and the map in the Intro change together.

No analytics, no trackers, no cookies. This page sets nothing and stores nothing for its

readers.
